## Alpine Township – where we grow and prosper

Despite slumping economies, West Michigan and Greater Grand Rapids area communities continue to prosper. This is due partly to the area's work ethic, its pro-business stance and business leaders' support of communities. The borders of Alpine Township are only four miles from the amenities of downtown Grand Rapids, yet it has maintained its rural identity. Alpine Township is ideally suited for food processing or agri-business related industries. Property with rail access is available. Alpine has one of the busiest commercial strips in West Michigan, with an average of 28,000 vehicles per day, (2010) and has easy access to both I-96 and US 131 from four interchanges less than a mile from our Township's borders. Most importantly, you will receive a warm welcome from our knowledgeable Township staff which will do all it can to make your transition a pleasant experience.

Alpine has good schools, a large number of churches, service organizations and an active community outreach coalition.

**DETROIT, October 30, 2012** – “Eight communities across the state of Michigan are top performers at fostering entrepreneurial growth and economic development according to the annual eCities study. The study, conducted by iLabs of University of Michigan-Dearborn's Center for Innovation and Research, identified Alpine Township, Grand Blanc, Grand Rapids, Imlay City, Meridian Township, Midland, Sterling Heights and Troy for their incentives, innovative programs and best practices geared toward business development. “
