

ALPINE TOWNSHIP PLANNING COMMISSION APPLICATION INSTRUCTIONS

5255 Alpine Ave. NW • Comstock Park, MI 49321 • (616) 784-9090 • Fax (616) 7841234 • www.alpinetwp.org

PRE-APPLICATION CONFERENCE: Applicants are encouraged to meet with Township staff prior to any extensive design and submission of an application. **No design or engineering work is required for these meetings**, but applicants should bring enough information to enable the participants to productively discuss any proposed development. Identification of issues of concern and proposed methods of resolving them will make the entire review process more efficient and should reduce cost to both the Township and applicants as part of a better-coordinated review. **Please call 784-9090 to schedule a Pre-Application Conference with Sue Becker, Planning Director.** While a pre-application conference is not required, it is **highly recommended**. Where a pre-application conference does not occur, the applicant is encouraged to be familiar with all Township requirements.

DEVELOPMENT REVIEW MEETING: For most applications, the Planning Director will schedule a Development Review Meeting shortly after formal application has been submitted. Representatives from Planning, Building, and Fire Departments and the Township Engineer will be present. The degree to which complete documentation has been provided will determine the success of this review and ultimately, the timely consideration of projects by the Planning Commission or Site Plan Review Committee.

The Development Review Meeting may generate changes to the application documentation. There will be a period of **one-week** following this meeting for the applicant to make necessary changes and submit them to the Planning Director for final review prior to placing the item on the Planning Commission's agenda. If, for some reason, the application is still incomplete or all issues have not been resolved in a timely manner, the item may be withheld from the agenda until complete.

A COMPLETE APPLICATION: Please completely fill out this application and the Site Plan Review Requirements Checklist; attach the required documentation and appropriate fees and return all the items to the Planning Department at the above address. If you have any questions, please call the Planning Director at (616) 784-9090. The Master Plan, Zoning Ordinance, and the calendar of submission deadlines and meeting dates are available at www.alpinetwp.org/publicdocuments.php

PROCESS:

- After a Development Review Meeting and application documents are ready for review, written comments will be sent to the applicant from the Planning Director, and where applicable from the Twp. Engineer, Fire Chief, Plainfield Twp. Water Dept., and other governmental agencies.
- The application will be reviewed at a public meeting of the Planning Commission or Site Plan Review Committee where a decision on the application will be made.
- If a Storm Water Permit application has not already been submitted, it must be submitted and approved at this point in time. Once the site plan or other request has been approved and all appropriate conditions have been fulfilled; Building Permit applications can be processed.
- After Building and Storm Water permits have been issued and construction completed, the Building Department will notify the Township Engineer when the final Building and Storm Water inspection is requested.
- Once the building and site receive final approval, the building and site may be occupied.
- The site and structure will be monitored after construction for compliance with the site plan and any conditions of approval, the Zoning Ordinance, and all construction codes.
- It is the applicant's responsibility to coordinate private utilities such as gas, electric and phone.
